

# Group Supervision

Once a month

(3rd Wednesday of the month: 10am till Noon)

**Starting January 17, 2024**

*With*

Veena Kaur, M.Sc., RP, RMFT-S

While the work we do is intense and immensely rewarding, it can sometimes leave us feeling drained, heavy and isolated. Group supervision offers a chance to connect with professional peers, have rich clinical conversations, and build a community of practice. It provides opportunities to enrich your clinical work, break the isolation of your practice, and build meaningful connections. People often talk about group supervision being rejuvenating and reconnecting to the joy of our work.

*Veena is a Registered Psychotherapist (RP), and a Registered Marriage and Family Therapist, with more than 20 years of experience as a Clinical Supervisor. She is a CAMFT Approved Supervisor, and meets the CRPO criteria for supervisors. She has been teaching clinical supervision courses and workshops for more than 12 years.*

Fee: \$125 per session (2Hrs)
