

Masters in Social Work Information

CAMFT welcomes your applications for membership. We realize that you have worked hard to get your MSW licence.

At the same time, the training you had may not have included all the courses we are looking for. The courses we accept are systemic in nature, and focused on interpersonal dynamics as well as larger systems. We will gladly review the courses you have taken if you send the syllabi to admin@camft.ca. We do need the syllabi, not a description, to make an accurate determination. As you will see when you read the 'membership explained' webpage RMFTs need all 11 of the required courses.

We know that your practicum would have included a lot of supervision. We are looking for supervision which is both systemic and focused on the dynamics of the family unit. If you feel your supervision contained these elements, and your supervisor is not an RMFT Supervisor, your Supervisor is welcome to apply to become an Approved Alternate Supervisor. That application can be found under the '[Supervision](#)' tab on our website.

If you don't have all 11 of the required courses or supervision to become an RMFT, you would be welcome to apply as an Associate member and work towards getting your courses and/or supervision. Associate members need only 5 of the required courses. You can review the applications on the '[applications page](#)' under the 'Membership' tab on our website.

If you have questions after reviewing all of the information on our website, please contact the CAMFT office at admin@camft.ca.
